Subject: Patent Expiration Bot

Chris-

I have tested your patent expiration Bot and find it to be extremely user friendly and accurate. The Bot takes into account all of the factors that are critical to determining the expiration date of a patent. Also, by including links to the United States Patent and Trademark Office, you have created a Bot that is user friendly, and provides the user with easy access to the critical information needed to make the determination of the expiration date. I am extremely impressed that you have been able to apply what you have learned in only a semester to the development of a very useful tool.

I understand that you will include this Bot on the internal website of the firm so that others can benefit from it and provide suggestions as to how to improve the site.

I think you did a great job with a very complex and challenging project.

Best,  
Elizabeth
